

I Said This, You Heard That

Pastor Tim Lucas

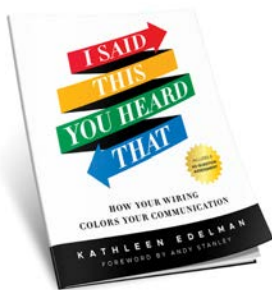

July 14, 2019

The right words at the right time can mean LIFE or DEATH. In a culture of spin and sarcasm, we're taught to use our words as weapons. But God wants us to use our words to help, heal, and to love. Let's SPEAK LIFE as we learn to harness the power of our words!

Ephesians 4:29

Do not let any unwholesome talk come out of your mouths, but only what is helpful for building others up according to their needs, that it may benefit those who listen.

"I Said This, You Heard That: How Wiring Colors Your Communication" by Kathleen Edelman helps put Ephesians 4:29 into everyday practice through the understanding of temperaments.

4 TEMPERAMENTS

“Temperament is your innate wiring from God—what you’re naturally disposed to. Like your eye color or fingerprint, it’s unchangeable. It’s why some people are drawn to the spotlight and stage and others are content with a cubicle in a quiet office. You don’t choose who you are and you can’t change how you’re wired... though many of us try.”

- Kathleen Edelman

1) Your temperament determines the words that you **SPEAK.**

2) Your temperament determines the words that you **HEAR.**

3) Every word that you use is a word that you **CHOOSE.**

Do not let any unwholesome talk come out of your mouths, but only what is helpful for building others up according to their needs, that it may benefit those who listen.

- *Ephesians 4:29*
